Installation Guidelines

**STEP 1**
Install the black base onto the meter bayonet. Install the seal pin into the base.

**STEP 2**
Install the door onto the base. Use the screw to secure the door.

**STEP 3**
Install the register ring on top of the base. Align the register ring notch so that it fits the base appropriately.

**STEP 4**
Install the register onto the completed base assembly and insert the final seal pin into the register. Follow normal procedures to install the other register.

4” TRU/FLO® Retrofit for E-Coder® R900i™ and E-Coder® R450i™ Enhanced Registers (For 4” TRU/FLOs pre August 2014)
